

New Source Review newspaper advertisements for construction permit applications, August 24, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: August 22, August 23, or August 24, 2006. Public notices are generally published every two weeks. The previous publication of public notices was August 8 – 10, 2006.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

#### FIRST APPLICANT

The first applicant is Southwind Building Systems with a mailing address of 372 Sanford Circle, Greeneville, TN 37743. They seek to obtain an air contaminant permit (Division identification number: 30-0194-01/60163) for construction of a Surface Coating Operation at the same address. This proposed operation would consist of equipment used to coat steel beams and plates. Because of the amount and type of emissions, the use of control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

#### SECOND APPLICANT

The second applicant is TI Automotive with a mailing address of 455 T. Elmer Cox Drive, Greeneville, TN 37743. They seek to obtain an air contaminant permit (Division identification number: 30-0193-01/60172) for modification of a Product Testing Operation at the same address. This existing operation consists of four (4) product test racks used to test fuel pumps. Mineral spirits are used during the testing process. The proposed modification is to add a ventilation system to control fugitive vapors released during testing. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. O. Jacobsen is the assigned Division person.

---

#### FIRST APPLICANT

The first applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain air contaminant permits for construction/modification of air contaminant sources at 4375 McClister Road, Morristown, TN 37814, as follows:

(1) Rock Crushing Operation (Division identification number: 32-0088-01/60208). This existing operation consists of a jaw crusher, cone crusher, screens, conveyors, crushed rock, sand stockpiles, and associated equipment used to produce gravel. Wet suppression is used for pollution control. The requested modification is to increase the throughput rate. There would be no physical construction. Regulated air contaminants are emitted by this source.

(2) Internal Combustion Diesel Generator (Division identification number: 32-0088-02/60194). This proposed source would consist of one generator used to power the rock crushing operation. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

## SECOND APPLICANT

The second applicant is Volunteer Fabricators with a mailing address of P.O. Box 398, Bean Station, TN 37708. They seek to obtain an air contaminant permit (Division identification number: 34-0011-02/60192) for modification of a Wood Furniture Finishing Operation located on Back Valley Road, Sneedville, TN 37869. This existing operation consists of seven (7) spray booths and four (4) ovens used to manufacture wood furniture. The requested modification is to increase the emission limit for volatile organic compounds. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. K. McLain is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, August 24, 2006.

---

The applicant is Phoenix Gin Company with a mailing address of 116 Phoenix Street, Tiptonville, TN 38079. They seek to obtain an air contaminant permit (Division identification number: 48-0008-01/60196) for modification of a Cotton Gin located at the same address. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modification is to increase the allowable hourly and annual bales of cotton processed. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the "Lake County Banner"--published once on or before Thursday, August 24, 2006.

---

The applicant is Bemis Gin and Warehouse Company with a mailing address of P.O. Box 9116, Jackson, TN 38314. They seek to obtain an air contaminant permit (Division identification number: 57-0048-01/60218) for modification of a Cotton Gin located at 50 Gin Street, Jackson, TN 38301. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modification is to increase the allowable annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Madison County "Jackson Sun"--published once on or before Thursday, August 24, 2006.

---

The applicant is Blue Grass Cooperage Company with a mailing address of 914 Booneville Highway, Lynchburg, TN 37352. They seek to obtain an air contaminant permit (Division identification number: 64-0017-03/60173) for

construction of a Barrel Sanding Operation at the same address. This proposed operation would consist of a barrel de-char, rough and fine sanders, and associated equipment used to convert used barrels not suitable for whiskey maturation into trash or display barrels. A cyclone and fabric filter would be used for control of particulate emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

For the "Moore County News"--published once on or before Thursday, August 24, 2006.

---

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 78-0103-01/60209) for an existing Rock Crushing Operation located at 3360 Winfield Dunn Highway, Kodak, TN 37764. This existing operation consists of a jaw crusher, grizzly feeder, screens, conveyors, crushed rock, sand stockpiles, and associated equipment used to produce gravel. Wet suppression is used for pollution control. The requested modification is to increase the material throughput rate. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.
